

Distribution Table

Bonus - 23%
 23% of all SDR coins supply will be distributed for free during pre-ICOs and ICO phases. Of the 23%, 10% will be allocated to Pre-ICOs and 13% will be allocated to ICO.

Pre-ICO A 10%
 Pre-ICO will begin with a Middle East pre-ICO first to support children's charity in the region. To help children affected by conflicts of the region.

Pre-ICO B - 10%
 Immediately after Pre-ICO A, Pre-ICO B will follow and this segment be for invited investors worldwide. Most will be corporate participants. Some individuals can participate and will be by invitation only.

Trust A - 15%
 Charitable Trust A will be composed of 15% of all supply. It will be frozen for 3 years and be released to charities in August 2024. Charities can opt to save, burn or sell their SDR coins then.

Trust B - 10%
 Charitable Trust B will contain a minimum of 10% of all supply with possible additions from undistributed pre-ICO and ICO SDR coins. SDRCs in this Trust will be frozen for 5 years and Charities can access Trust B after August 2026

Investor Trust - 6%
 Investor Trust is frozen from public trading for 7 years - until August 2028 before original investors can exchange their SDR coins for fiat currencies. Investor's First-in-Last-Out approach is pivotal to user confidence.

ICO - 26%
 Initial Coin Offering will go live to the general public in December 2021 and will last until Easter 2022. ICO participants will enjoy 50% extra SDR coins as bonus. Purchase restrictions apply

Like fiat currencies, Special Drawing Rights Coin (SDR coin) is the first cryptocurrency to have just 2 decimal places so our users are not confused by the long decimal places of seen with other cryptocurrencies.
